Children must always be supervised by an adult, in and out of the water. It is forbidden to dive, use mattresses and inflatable floats. Guests must pass the shower before entering the pool. Due to the limited number of chairs and loungers, they cannot be booked, therefore, it is forbidden to leave towels or other items in the loungers with the intention to mark the spot while they are not being used.

### Use of the grill and picnic area

The grill can be used at any time, subject to availability, so guests must be organized in its use. All necessary precautions must be taken to avoid fires, particularly on days of greatest risk. With the exception of guide or assistance dogs, animals are only admitted to the T3, where they have a pet friendly kit, with a doghouse, feeder, drinking fountain, mattress and blankets, with food being the responsibility of the owners. Exceptionally, they can be admitted to other houses, subject to prior assessment. Animals can only circulate in common spaces with adequate means of restraint and cannot disturb other customers, and they may be required to leave immediately if they exhibit dangerous or unacceptable behavior, such as biting, scratching or excessive barking. Owners are responsible for the hygiene of the space occupied by the animals and any damage caused by them, and the security deposit will be retained in whole or in part in case of violation of this standard. Employees will only enter the accommodation for cleaning or maintenance if the animal is not present or if it is in the company of the owners with due restraint.

### **Prevention and safety measures within the scope of the Covid 19 pandemic**

The TER unit, consisting of 3 independent houses, with a maximum capacity for 18 people, is integrated in a farm with approximately 3600m<sup>2</sup>. The space configuration is adequate to maintain a safe distance, either between guests or between guests and employees, as inside each building only members of the same family group or friends live together and the conditions of the outside space are not favorable to the agglomeration of people. Despite this, some procedures are in place to reduce the possibility of contagion, namely:

- Existence of disinfection points in strategic locations of the unit, namely, in the reception area
- Use of masks by employees in customer contacts
- Advance data request to facilitate the admissions process
- Delayed customer service at reception
- Disinfection of reception surfaces after each service
- Frequent disinfection of common spaces
- Implementation of a rotation scheme for the use of garden furniture in common areas and its disinfection after each use
- Disinfection of bicycles, fishing rods and other accessories before they are made available to customers
- Scheduling the cleaning of accommodation to reduce the probability of contact between guests and employees
- The eventual delivery of products to the accommodation is made at their entrance
- Availability of personal protection kits for purchase at reception
- The "oven room" is available to function as an isolation room
- Employees follow a hygiene and safety protocol that includes measuring body temperature at entry, using disposable masks and gloves, and recording any changes to regular bodily functioning

### TER Unit Responsibilities

**Service provision** – The unit has the duty to provide the services to which it has undertaken within acceptable quality standards, striving to guarantee a stay in accordance with the customer's expectations, and should therefore listen to any suggestions given to it.

**Complaints book** – In case the service does not meet expectations, the customer has the right to complain, and may do so at the reception or on the Electronic Complaints Book Portal, available at: <https://www.livroreclamacoes.pt/>

**Civil liability** - The TER unit has a non-contractual civil liability insurance of the Fidelidade insurance company - policy No. ME64786057 - which covers events attributable to it, but does not cover incidents resulting from omission of information or inaccurate information provided by the customer, or accidents arising from improper use of space. The unit is also not responsible for services provided by third parties, even if they have been contracted/provided through them, and these are responsible for them.

**Security** – Regardless of the cleaning service, for security reasons and in case of extreme urgency, the management reserves the right to **enter** the accommodation in the absence of guests.

### Customer Responsibilities

Guests should take care of the interior and exterior space of the house, avoiding damage to equipment and household items; upon departure, an assessment of possible losses or damages is carried out, which will be charged according to the prices listed in the attached inventory.

Customers must also take care of the keys given to them at check-in, returning them at check-out. In case of loss, the reception must be notified, and an additional fee will be charged for the provision of new keys.

Guests must refrain from interfering with the performance of the staff who provide services at the TER unit and from performing acts that disturb other customers, particularly with regard to noise at night, especially between 12pm and 8am.
