National/regional public financial support | 0.00€

Objectives, activities and expected results

Creation of an inclusive Rural Space Tourism unit. It consists of the conversion of an old commercial point in the town of Valverde, municipality of Évora, into 3 accommodation units of T1, T2 and T3, which, in addition to offering affordable accommodation, includes the provision of complementary services especially designed and adapted people with reduced mobility and other specific needs, including personalized assistance of numerous levels. It also aims to boost the region in which it operates by attracting tourists and creating jobs.
